NARASINGHA CHOUDHURY
AUTONOMOUS COLLEGE JAJPUR, ODISHA

DR. JYOTSNA JAIN
ASSOCIATE. PROF., OF ZOOLOGY
KANORIYA GIRLS COLLEGE
JAIPUR (RAJ)

Introduction:

When looking at environment and technology, it is important to understand the context within which it has to be analyzed. The situation is paradoxical - technology represents both the source of environmental damage that we are facing today, as well as an opportunity to repair this damage, and avoiding it in the future

For this reason, we need to consider the proximate causes of environmental damage - machines, factories, cities, and so on - in a larger societal context, from which the decisions to devise and implement solutions arise. It helps explain the complexities of global environmental problems such as greenhouse gas emissions or hazardous/toxic wastes, but also demonstrates the critical role of technological innovation to address those issues.

Sub Theme:

- **Environment and Technology**
- **Effects of Technology on Ecological Balancing**
- **Cutting through environmental Issues: Technology a double edge sword**
- **Technology: A Boon or sin for environment**
- **Technology: our last hope for environmental conservation**
- **Environmental sustainability through technological innovation- A paradigm shift**

Experts Details:

Dr. Biswajit Mohapatra
(Botanist and Environmentalist)
Asst. Prof in Botany,
Narsingha Choudhury Autonomous
College Jajpur, Odisha

Dr. Sarada Prasad Mohapatra
Academic Head and
International Co-ordinator
N.C.A.C. Jajpur, Odisha India

Praveen Kumar Regmi
Faculty, Dept of Environmental
Science Trichandra Campus,
Tribhuvan University Kathmandu,
Nepal
